Pacer ETFs Launches 2 Dividend ETFs in Partnership With Metaurus Advisors

New additions to custom ETF lineup represent Pacer's first foray into dividend-focused ETF products

MALVERN, Pa. (July 13, 2021) — Pacer ETFs ("Pacer"), an ETF provider that offers strategy-driven, rules-based ETFs, is proud to announce the launch of two U.S. large-cap dividend ETFs, in partnership with financial innovation and asset management company, Metaurus Advisors, LLC ("Metaurus").

The two new unique, dividend-focused ETFs are now available on the New York Stock Exchange:

- The Pacer Metaurus US Large Cap Dividend Multiplier 400 ETF ($QDPL), which seeks to provide cash distributions equal to 400% of the S&P 500 dividend yield in exchange for modestly lower exposure (~88%) to the price return performance of the S&P 500.

- The Pacer Metaurus US Large Cap Dividend Multiplier 300 ETF ($TRPL), which seeks to provide cash distributions equal to 300% of the S&P 500 dividend yield in exchange for modestly lower exposure (~92%) to the price return performance of the S&P 500.

"We are pleased to partner with Metaurus on these funds given their expertise," shares Pacer ETFs Distributors President Sean O'Hara. "The emphasis on portfolio cash flow and income needs are not going away, and the market has shown a significant interest in strategies that creatively address this demand. At Pacer ETFs, we feel these two funds answer this call."

Rick Silva, partner and Senior Managing Director of Metaurus Advisors, explains their decision to partner with Pacer on these funds: "Pacer's strategy-driven approach and keen sense of industry needs are what drew us to this partnership and creation of these innovative ETFs based on patented technologies. Our team is looking forward to bringing together our shared knowledge in the ETF space to deliver unique solutions to investors seeking to combine a multiple of the index's dividend yield with diversified, broad market exposure.

In recent weeks, Pacer celebrated its sixth birthday while surpassing $7 billion in assets under management. The firm also just rolled out its July series of the Pacer Swan SOS ETF family.
